SUMMARY

Graduate student with a background in Computer Science (Bioinformatics) and a passion for bridging technology, data, and strategy. Experienced in analyzing product growth, building data-driven dashboards, and deploying practical AI solutions to help teams make smarter business decisions.

EDUCATION

B.Tech – Computer Science & Engineering (Bioinformatics)

2022 – 2026

Vellore Institute of Technology (VIT) · Vellore, India

Coursework: Data Structures & Algorithms, DBMS, OOP, Bioinformatics

TECHNICAL SKILLS

Languages & Tools	Python, C++, SQL, Pandas, NumPy, Power BI, Excel, Git
Business & Strategy	Product Strategy, Market Research, Competitive Analysis, Agile, SEO/GEO, B2B Outreach
Soft Skills	Team Leadership, Cross-functional Collaboration
Languages	English (Fluent), Telugu (Native), Hindi (Conversational)

WORK EXPERIENCE

Business Analyst Intern – Product Strategy & Growth

Aug 2025 – Dec 2025

CEEC Global Ventures (VIT Incubator) · Vellore, India

- Conducted competitive intelligence across **10+ industry verticals**, identifying feature gaps that drove the product roadmap and led to **2 major product launches**.
- Synthesized user journey data and feedback to prioritize a backlog of **30+ feature requirements**, improving sprint delivery rates by **22%**.
- Formulated user stories, process flows, and acceptance criteria as Product Owner, reducing developer rework time by **15%**.
- Managed B2B outreach to **20+ client organizations** while executing SEO/GEO strategies that boosted organic search visibility by **35%**.

PROJECTS

ApexStrategy – F1 Telemetry & Strategy Dashboard

Apr – May 2026

Python · Pandas · NumPy · FastF1 · Chart.js

- Engineered an F1 telemetry dashboard and pit stop optimizer using Python, modeling compound-specific tire degradation with linear regression.
- Simulated undercut/overcut success rates using historical lap data, providing strategists with actionable, data-driven pit window suggestions.

Dishcovery – Recipe Recommendation Engine

May – Jun 2025

Python · Flask · Pandas

- Designed and deployed a Flask web app recommending recipes based on user ingredients, achieving a **~80% relevance score** in user trials.
- Preprocessed a database of **5,000+ recipes** using Pandas, reducing data noise by **40%** to improve recommendation accuracy.

Automated Low-Light Car Image Enhancer

Oct – Dec 2024

Python · OpenCV · YOLOv8 · K-Means · CLAHE

- Developed a CLAHE, gamma correction, and noise reduction pipeline that boosted image clarity (PSNR) by **45%** across 200+ samples.
- Integrated YOLOv8 object detection with K-Means clustering to automate vehicle color classification, attaining **92% accuracy**.

CERTIFICATIONS

Oracle Cloud Infrastructure 2025 – Generative AI Certified Professional

Jul 2025

Oracle University

NumPy and SciPy for Data Science

May 2026

Intellipaat Academy

LEADERSHIP & EXTRACURRICULAR

Sponsorship Head & Board Member – JAAGRUTHI

Dec 2022 – Feb 2026

Riveria Cultural Festival, VIT

- Directed a sponsorship acquisition team of **15+ members** for 3 national-level festivals, securing brand partnerships and funding.

Technical Head – VITMAS

Nov 2023 – Feb 2026

Gravitas Technical Festival, VIT

- Developed operational automation tools and web portals for technical festivals, mentoring **8+ junior developers** in agile workflows.
